

## Course Project

---

SMILE  
Istanbul

## Course Objectives

---

- To look at ways in which Schools and Museums can work together to increase pupils knowledge and understanding of the world
- to develop ways of using Museums to explore the identities of ourselves and others
- to explore ways of working in cities as museums

## Practical Group Project

- You are sent out as a group of museum curators/explorers to find out more about Istanbul and its museums. Through your visits this week you should try, like all good explorers, to get behind the city and its museums as presented to tourists. Look at one theme showing an aspect of Istanbul life through the city and visits to museums.
- Present a exhibition of a week in Istanbul including no more than 12-15 images (5 per participant). Your exhibition should include; several Adobe Voice videos and several objects.
- Begin a Webquest – a plan of how would you interpret and teach using museums for the students in your school.
- Create a "joe cutting " quiz about the Topkapi palace
- A QR code interpretation of the Archaeological museum

## Museum Activity

Present an implementation plan for working with children, young people or adults in a local museum of your choice using the ideas developed on this course. Consider developing the plan into a Webquest
